

Mohamed Salah Abu Azzam

Frontend Developer

[Phone](#) | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

B.Sc. in Computer Science and ITI-trained Frontend Developer, specializing in React, JavaScript, and API-integrated web applications. Experienced building responsive, accessible UIs with a focus on clean architecture and rendering performance. Looking to contribute to a product-driven team where technical depth and attention to detail matter.

TECHNICAL SKILLS

Frontend Core	HTML5, CSS3, JavaScript (ES6+)
Frameworks & Libraries	React.js ,Bootstrap 5, Tailwind
State & Data Management	RESTful APIs, Fetch API, Async/Await, JSON, LocalStorage
Styling & Design	Responsive & Mobile-First Design
Core Concepts	Web Accessibility (WCAG), Semantic HTML, Cross-Browser Compatibility
Version Control	Git, GitHub

PROJECTS

Progressive Web App (PWA) Task Manager | React 2026

Technologies: React, JS, CSS | [Live Demo](#) | [GitHub Repo](#)

- Built an installable PWA with full offline support, Service Worker caching, and LocalStorage persistence.
- Developed a custom drag-and-drop system from scratch to optimize bundle size and eliminate dependencies.
- Delivered a mobile-first, high-performance responsive interface across all screen sizes.

E-Commerce Web Application | React 2026

Technologies: React, JS, CSS | [GitHub Repo](#)

- Built a fully functional e-commerce front end featuring product listing, keyword search, category filtering, and a dynamic shopping cart with quantity management.
- Leveraged React component architecture to create reusable UI elements, reducing code duplication and improving maintainability.
- Delivered a fully responsive design optimised for all screen sizes.

CRUD Application | JavaScript 2025

Technologies: JS, HTML5, CSS3, LocalStorage API [Live Demo](#) | [GitHub Repo](#)

- Built a fully functional CRUD task manager supporting create, read, update, and delete operations, with all state persisted via LocalStorage.
- Optimised DOM rendering using event delegation, fully responsive across all screen sizes.

EDUCATION

B.Sc. Computer Science | Faculty of Computers & Information, Tanta University *Graduated 2024*

Grade: Very Good (82.94%) | GPA: 3.02 / 4.0

Training / Scholarships

Frontend Development Scholarship | Information Technology Institute (ITI)

Jul 2023 – Sep 2023

- Completed intensive 120 hours of frontend training covering HTML5, CSS3, JavaScript (ES6), Bootstrap, and Angular through practical assignments and a final project.
- Developed hands-on experience building responsive interfaces and debugging layout, JavaScript, and browser-related issues.
- Continued expanding frontend skills independently with React and modern frontend development practices.
